

LAXTRACIDE GUM PXT

TECHNICAL INFORMATION

Description

It is a low toxic wide spectrum biocide specially developed for complete microbial protection of water treatment, sugar and other applications.

Composition

Proprietary blend of biocides

Biological Properties

Laxtracide GUM PXT is completely effective in preventing growth of micro-organisms responsible for wet state degradation in sugar, water treatment and other applications. It is an excellent preservative against most of the microbial degradation. However, Laxtracide GUM PXT has a wide spectrum activity against following organisms.

BACTERIA

Alternaria alternata
Aureobassidium pullulans
Lentinus tigrims
Trichoderma Viride
Aeromonas Sp
Alcaligenes Sp
Bacillus Sp
Escherichia Sp
Flavobacterium Sp
Klebsiella Sp
Proteus Sp
Pseudomonas Sp
Proteus mirabilis

FUNGI

Aspergillus niger
Cephalosporium fragrans
Ceratocystis pilifera
Aspergillus Sp
Candida Sp
Cephalosporium Sp
Cladosporium Sp
Fusarium Sp
Paecilomyces Sp
Penicillium Sp
Rhodotorula Sp
Streptomyces Sp
Torula utilis

Target Industries

Paper & Pulp, GUM, Water Treatment, Veterinary, Cold Storage, Ceramic and Clay, Adhesives, Prawn and Fish Culture, Emulsion Polymerization, Construction.

Typical Properties

Colour & Appearance	Colourless clear liquid
Odour	Characteristic
pH (5 % in distilled water)	6.0 - 8.0
Solubility in water	Soluble
Specific Gravity at 27 +/-2 C	0.970 - 0.985

Dosage

The dosage of Laxtracide GUM PXT is recommended @ 0.3 to 1.0 % of the final product depending on the type and susceptibility of the finished product and the raw material used.

The Sonachi Microbiological Laboratory will be ready to assist in the optimization of the dosages required for the products. This facility is most useful where formulation has greater microbiological susceptibility.

Method of Use

Laxtracide GUM PXT can be added either manually or by automatic metering device, at any stage of the production process but since protection is required throughout, it is recommended to use at early stage.

Compatibility

Laxtracide GUM PXT is compatible with most of the raw materials used in the microbiological susceptible products. It causes no discoloration and may be used in formaldehyde sensitive systems.

Availability

Laxtracide GUM PXT is readily available ex-stock at all time in 30/50/200 kgs HDPE carboys.

Storage

It is also recommended that product should be stored in original Sonachi sealed containers at ambient temperature and protect from direct exposure of sunlight. It is also recommended that product should be used within 6 months of delivery.

Handling

Since material is classified as irritant may produce some burning skin. It is recommended that normal protective clothing, gloves and face protection should be worn during handling the product.

Toxicology

Laxtracide GUM PXT has following toxicological properties.

Acute Oral LD50Rat	2540 mg/kg
Acute Dermal LD50Rat	1560 mg/kg
